Mr. Louis Manios

5 U.S.C. § 552 (b)(6) Personal Privacy
SUBJECT: Soil Sampling on Lot 43, Bent Creek Drive, Kings Acres Subdivision
Greer, South Carolina

Dear Mr. Manios:

As you know, The Fletcher Group, Inc. is working with Exide Corporation and the South Carolina Department of Health and Environmental Control (SC DHEC) to provide surface soil sampling along Bent Creek Drive and Bowers Circle in the Kings Acres Subdivision, Greer, South Carolina. With your permission, a soil sample was collected from lot 43, at a depth of 0 to 3 inches, for total lead analysis. SC DHEC collected a split sample for duplicate analysis by their laboratory. The results on the samples collected from lot 43 are as follows:

Lot No.	Sample Description	Fletcher Group Lead Concentration (ppm)	SC DHEC Lead Concentration (ppm)
43	B43-1	185	190

These concentrations are below the current SC DHEC and the US Environmental Protection Agency (US EPA) action level for lead in residential soils. The sample results from your property will be included in a full report on the Kings Acres subdivision sampling scheduled to be submitted to SC DHEC on or before August 30, 1996. Following review and comment by SC DHEC, the full report will be placed by SC DHEC in the information repository at the Greer Library.

If you have any questions concerning the on-going study, please feel free to call me at (864) 422-9999, or the Project Manager with SC DHEC, Mr. Mike Klender, at (803) 896-4073, or the district office SC DHEC contact, Mrs. Mary Leister, at (864) 241-1090.

Sincerely,

The Fletcher Group, Inc.

Kathy Webb, PG

cc: Mike Klender, SC DHEC
